SUBJECT: ISSUANCE OF SCOPING SUMMARY REPORT OF COMMENTS RECEIVED
RELATED TO THE INTENT TO PREPARE AN ENVIRONMENTAL IMPACT
STATEMENT FOR THE PROPOSED IDAHO SPENT FUEL FACILITY

The U.S. Nuclear Regulatory Commission (NRC) opened a public scoping comment period to obtain public input regarding its intent to prepare an environmental impact statement (EIS) for the proposed Idaho Spent Fuel Facility to be located on the Department of Energy's Idaho National Engineering and Environmental Laboratory site. The scoping comment period extended from publication of the notice of intent on July 26, 2002 until September 16, 2002. In addition to announcing the scoping comment period in the Federal Register, advertisements were also placed in the following newspapers:

The Idaho News, Idaho Falls (Sunday, August 4 and Wednesday, August 7, 2002); and

The Idaho Statesman, Boise (Sunday, August 4 and Wednesday, August 7, 2002).

NRC's contractor, The Center for Nuclear Waste and Regulatory Analyses, has prepared the attached scoping summary report. The scoping summary report describes the scoping process; discusses the significant issues and concerns raised, the alternatives to be evaluated and the scope of the EIS; and addresses issues considered to be beyond the scope of the EIS. The report will be made available for public review on NRC's Idaho Spent Fuel Facility web page: <http://www.nrc.gov/waste/spent-fuel-storage/idaho-spent-fuel.html> (case sensitive). The report will also be available through our electronic reading room: <http://www.nrc.gov/NRC/ADAMS/index.html>.

The draft EIS is scheduled to be released for public review and comment in June 2003. The final EIS is expected to be published in January 2004. If you have any questions or comments concerning the Scoping Summary Report, please contact Matt Blevins at (301) 415-7684.

Sincerely,

/RA/
